Re: Revival of Abandoned Application #10-774-270 for "Micro-Auctioning".

Dear Officer,

On February of last year a patent application was filed on the company's behalf by the former CEO George Tannous, I Mike Berman had just recently taken over as the new CEO and did not process the application.

Unfortunately there has been several recent communications between the U.S. Patent Office and George Tannous concerning the need for additional information about the patent application to which he has neglected to respond causing the application to be abandoned.

George Tannous has recently forwarded a letter informing all concerned parties that he has officially transferred all rights associated with the patent application to Auctiondiner.com, Inc.

I, Mike Berman as the acting CEO am prepared to take every necessary step to revive and expedite the successful filing of the patent application. Towards that goal I am sending an official copy of that letter so that we can move forward with the Revival of Abandoned Process.

My sincerest apologies,

Michael S. Berman  
CEO

Re: Patent filed "Micro Auctioning"

Dear Mr. Berman:

This is to inform you that all my rights in the business method "Micro Auctioning" rightfully belongs to Auctiondiner.com. All I did was file the original "Provisional Patent" later followed by the "Non-Provisional Patent" on behalf of Auctiondiner.com, Inc.

You may have anyone contact me via phone at 818-951-5755 to discuss.

Sincerely,

George Tannous
